General Information

Short summary

Our client is searching for the supplier of methanol and acetonitrile in large volumes to establish long term business relationship

Full description

It is a private group active in the Laboratory and Industrial Chemicals, Labware and Furniture for Laboratory, and products for the Life Science field. The company is directly active in four countries (Italy, France, Germany and Spain) and serves markets all over the world. Two production plants (chemicals) and export functions are located in France.

Advantages and innovations

160 years after its foundation, the company continues to represent a reference in the field of chemistry as well as a one-source supplier and qualified "partner in the choice" for the quality control and research laboratory of the industry and academia.

Technical specification or expertise sought

The company can produce for you all kind of solutions or mixtures for various applications from 2.5L to several tons. This service allows you to save time, to reduce risks associated with the preparation of these solutions, and to receive a record label and safety data conform to current legislation.
