General Information

Short summary

A Spanish trading company specialized in commodities is continuously looking for new products to meet its client's needs. The company is looking for specialized steel materials, including large-diameter discs and various steel plates and angle bars made from ASTM-certified alloys. Uses could be multiple, but mainly on industrial constructions, shipyards, refineries etc

Full description

As an international company originally founded as a complementary asset to a large logistics provider, both still operate side by side to give the best possible service to our customers. With offices and agencies around the world we market our portfolio to various regional European, North-American and Caribbean, as well as global markets. Our customers include mid-to-large sized commercial industrial consumers, mines ,utility companies and energy producers that demand specialized solutions to meet unique requirements. Each group provides value to customers through innovative commodity supply, transportation, and pricing solutions.

With the purpose of meeting our clients needs, we are currently looking for:

Larger Diameter Disc:

- Diameter: Greater than 755 mm
- Hole Diameter: 390 mm

- Thickness: 75 mm
- Material: ASTM A 387 Grade 5 or ASTM A 387 Grade 9

Steel Plates (ASTM 240 Grade S31277):

- Dimensions: 3000 x 470 x 3.0 mm
- Dimensions: 6000 x 1250 x 3.0 mm
- Dimensions: 6000 x 1500 x 8.0 mm
- Dimensions: 2000 x 1250 x 2.0 mm
- Dimensions: 2000 x 1250 x 3.0 mm
- Dimensions: 6000 x 1500 x 5.0 mm

Steel Angle Bar (ASTM 240 Grade S31277):

- Profile Dimensions: 65 x 100 x 8.0 x 3000 mm
